

Nuclues of Origin	Preganglionic Pathway	Ganglion	Site of Ganglion	Postganglionic Pathway	Organ Destination
Edinger-Westphal (Midbrain)	CN III	Ciliary	Posterolateral to optic nerve in Orbit	CN V1 short ciliary n.	Ciliary Muscle Sphincter Pupillae (pupil constrictor)
Superior Salivatory (Pons)	CN VII via petrosal n. & n. of PT canal	Pterygopalantine	Pterygopalatine Fossa inferior to maxillary nerve	CN V2 greater & lesser palatine nn., nasopalatine n., lacrimal n.	Palate Nose Pharynx Lacrimal Gland
	CN VII via chorda tympani	Submandibular	on hyoglossus muscle inferior to lingual nerve	CN V3 lingual n.	Sublingual Gland Submandibular Gland
Inferior Salivatory (Medulla)	CN IX via tympanic & lesser petrosal branches	Otic	Infratemporal Fossa inferior to foramen ovale	CN V3 auriculotemporal n.	Parotid Gland
Dorsal Nucleus (Medulla)	CN X	-	Scattered ganglion near/ in walls of target organs		Larynx (glands) Bronchi Heart Esophagus Foregut & Midgut
